gantry cranes, and forklifts. Operation of this equipment causes the release of diesel engine exhaust into the environment. Operation of the diesel-powered ships also causes the release of diesel engine exhaust while at birth. Diesel engine exhaust is known to the State of California to cause cancer.

At all relevant times and continuing to the present time, this entity has exposed and continues to expose residents within the State of California including, but not limited to, the Bradfields, to high levels of diesel engine exhaust, a carcinogen. Exposure has occurred, and continues to occur, through breathing in, and dermal contact with, the diesel engine exhaust released by this entity. The above referenced exposure occurs beyond the property owned, operated or controlled by this entity and affects many individuals, but not limited to the Bradfields who reside, work or are otherwise located in proximity to the property owned, operated, or controlled by this entity.

Because diesel engine exhaust is a chemical listed in Proposition 65 as a cancer-causing chemical, pursuant to Health and Safety Code § 25249.6 this entity was, and is, required to provide clear and reasonable warnings to all persons who come into contact with, or who may come into contact with, this carcinogen. The warnings must state that a chemical known by the State of California to cause cancer are present. Pursuant to Health and Safety Code § 25249.7(d), the Bradfields intend to bring suit in the public interest against the above named entity sixty days hereafter to correct the violation occasioned by the failure to warn all California residents to the exposure of diesel engine exhaust.

Pursuant to 22 California Code of Regulations § 12903(b)(1), attached is a copy of "The Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): A Summary," a summary of Proposition 65 prepared by the Office of Environmental Health Hazard Assessment of the California Environmental Protection Agency.

Pursuant to Health and Safety Code § 25249.7(d)(1), the undersigned hereby includes the attached Certificate of Merit, to wit, that the undersigned has consulted with one or more persons with relevant and appropriate experience or expertise who has or have reviewed facts, studies, or other data regarding the exposure to the listed chemical that is the subject of this notice, and that, based on that information, the undersigned believes there is a reasonable and meritorious case. Factual information sufficient to establish the basis of this Certificate of Merit is included with the notice that is served on the Attorney General and is provided to that office in confidence and is not to be disclosed except according to law.
